

THE ORIGINAL AND GENUINE
CANNON OILER

FIG. 1221

The Genuine Cannon Oiler meets a long felt demand for an oil can in which the oil is entirely controlled by the operator in whatever position the can may be held. In this can is combined quickness, convenience and economy. Quick, because you do not have to wait for the oil to slowly trickle out, as it is forced out by simply pressing on the plunger. Convenient, because the can may be held in an easy, natural position, thereby enabling the operator to hold the nozzle in the proper place for oiling the bearing.

[No.]	Capacity, Pints	Diameter, Inches	Extreme Height, Inches	Length of Spout, Inches	Kind of Material	Price, Each	Price, Per Dozen
0	1	3 $\frac{1}{2}$	9 $\frac{1}{4}$	6	Tin	\$0.85	\$10.00
1	1	3	12 $\frac{1}{2}$	8	Tin	.85	10.00
2	1 $\frac{1}{2}$	3 $\frac{1}{2}$	17 $\frac{1}{4}$	12	Tin	.95	11.00
2 $\frac{1}{2}$	2	4	18	12	Tin	1.00	12.00
3	2	4	26	20	Tin	1.10	13.00
0	1	3 $\frac{1}{2}$	9 $\frac{1}{4}$	6	Brass	1.35	16.00
1	1	3	12 $\frac{1}{2}$	8	Brass	1.35	16.00
2	1 $\frac{1}{2}$	3 $\frac{1}{2}$	17 $\frac{1}{4}$	12	Brass	1.50	18.00
2 $\frac{1}{2}$	2	4	18	12	Brass	1.70	20.00
3	2	4	26	20	Brass	1.75	21.00

EXTRA PARTS

Oiler No.	0	1	2	3
Tin spouts, complete with pump.....	each	\$0.35	\$0.45	\$0.60
Brass spouts, complete with pump.....	each	.50	.60	.75
Pump plungers, complete.....	each	.15	.15	.15
Pump feathers.....	per dozen	.15	.15	.15
Plunger springs.....	per dozen	.60	.60	.60
Extra tin tips for No. 3 spouts, 6 $\frac{1}{2}$ " long.....		.60	.60	.60
Extra brass tips for No. 3 spouts, 6 $\frac{1}{2}$ " long.....		1.00	1.00	1.00

The Cannon Oiler is always ready for use. The spout will never clog up from the fact that it is always full of oil. Even if the spout is used to clean out the oil cups one pressure on the plunger starts the oil.

CANNON LONG SPOUT OILERS

The genuine Cannon, long spout type Oiler is particularly useful around machine shops and factories for lubricating shafting hangers, motors and mechanism attached to the ceiling. It does away with the use of a ladder and saves the time of the operator and protects him from entanglement in the shafting. In use, the tip of the spout is used to clean out the oil well on the bearing, and a light pressure on the pump immediately forces any quantity of oil from a drop to a tablespoonful. Economical, safe and fast.

½ Gal. 20 inch Spout, Brass.....	List price each	\$ 7.50
½ Gal. 3 foot Spout, Brass.....	List price each	8.50
½ Gal. 6 foot Spout, Brass.....	List price each	10.50
½ Gal. 9 foot Spout, Brass.....	List price each	12.00
½ Gal. 12 foot Spout, Brass.....	List price each	15.00
½ Gal. 15 foot Spout, Brass.....	List price each	22.50
